

Introducing the NEW Carib Dancer!

Bahamas

The LiveAboard Lifestyle is coming to the Bahamas and the Out Islands!
Divers can now explore the lush, sheer walls, captivating wrecks and mystical blue holes of the Exuma Cays aboard the elegant, 14-passenger Carib Dancer yacht.

New Destination!

Dream, Dive, Discover in the Bahamas

The islands of the Bahamas are sprinkled over 100,000 square miles of ocean starting just 50 miles off the coast of Florida. The archipelago is an ecological oasis featuring 2,000 breathtaking islands and cays that boasts the clearest water on the planet. Incredible marine diversity is found right beside breathtaking white and pink sand beaches.

Scuba divers travel to find three things: dramatic walls, lush coral reefs and exciting animal encounters – and the Bahamas Out Islands offer all this! Warm, turquoise crystal-clear waters and drop-offs close to shore make these islands a diver's dream. Mysterious blue holes and caverns, ship wrecks, vibrant living reefs and soaring wall dives all await both novice and experienced divers.

Embarking in Nassau with its easy access to numerous airlines, the Carib Dancer will cruise through the Exuma Cays Land and Sea Park bringing easy access to remote yet premier dive spots. The Exumas consist of an array of more than 350 small islands and cays. The crystal-clear tropical Atlantic pours over the deep cuts between the cays and constantly shifting sand bars. Waters are thick with coral reefs that are alive with every imaginable ocean critter from the living jewels – angelfish and butterfly fish – to the charismatic food-chain toppers like grouper and barracuda – right down to the tiniest living invertebrates. Night diving allows guests to experience an entirely different group of critters and bevy of behaviors not visible during the day.

The Bahamas and her Out Islands offer a distinct blend of international glamour and tropical ease. If you are looking for an amazing diving experience, you'll find it here in the Bahamian waters where they proclaim "It's Better in The Bahamas".
