

## About Fiji

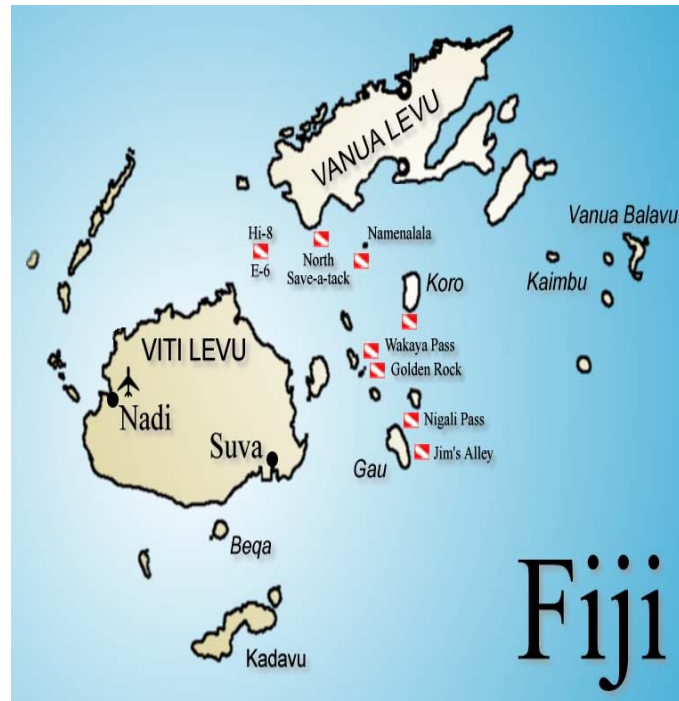

Bula! Known as the soft coral capital, Fiji dazzles everyone with its bright corals and huge sea fans surrounded by clownfish, ornate ghost pipefish and nudibranchs. But it does not stop there. Fiji also comes

with schooling pelagics. Make sure you turn from the bright corals and look for barracuda, reef sharks, mantas, tuna and the occasional pilot whale! There is no shortage of marine life large and small in the waters of Fiji.
