Go to Cocos Island !

## About Cocos Island

This is a very unique itinerary. The 300 mile voyage to a natural wonder of the world. Cocos is the only island in the tropical eastern Pacific with a tropical rainforest. Its position as the first point of contact with the northern equatorial counter-current, and the myriad interactions between the island and the surrounding marine ecosystem, make the area an ideal laboratory for the study and observation of life both above and below the surface.

## Getting There:

You have many options for flying into San Jose (Juan Santamaria International Airport). You should arrive the day before your charter begins. You will then be picked up at two designated hotels the next day for your transfer to the yacht in Puntarenas.

Dive Easy Travel®, Peter Hughes Diving's travel specialist, will be happy to assist with hotel or flight arrangements. Be sure to contact Dive Easy Travel® at 800-9-DANCER or 305-669-9391 for the most competitive airfares.

-  24-Hour Safety Watch

# Welcome Aboard

## Dive Easy® in Cocos Island...

Truly an incredible live-aboard journey and a visual feast above and below the waters of this World Heritage Site.

## Onboard Wind Dancer

Cruising the World Heritage site of Cocos Island, Wind Dancer is a 120-foot steel mono hull vessel that accommodates 18 passengers. Wind Dancer features 9 well appointed state-rooms each air-conditioned and with ensuite facilities. Wind Dancer also features all the standard perks of the Dancer Fleet® and has plenty of areas to relax and

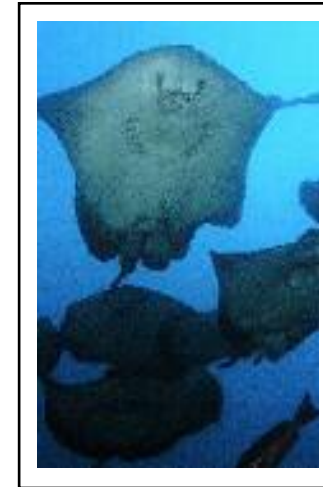

hang out in between dives. When not diving, guests can gather at the wet bar on the Lido Deck, sunbathe or just relax on the covered and uncovered sun deck or cool off in the comfortable, air-conditioned salon. Wind Dancer dives are made from 2 dive tenders, each capable of carrying 11 divers plus crew.

## The Diving...

The unique Wind Dancer itinerary visits the Cocos Island National Park. Limited to a very few divers at a time, this coveted drift diving destination delivers you to one of the most concentrated large animal marine encounters in the world. The convergence of multiple ocean currents bring in massive schools of hammerheads, tuna, jacks and more. Passing dolphins, whale sharks and manta rays are sighted as well as an occasional sailfish.

The marine diversity also includes turtles, octopus, morays and creole fish. Cocos Island must be at the top of every divers 'Bucket List'.

## Tour Some More...

Extend your Costa Rica vacation to enjoy some additional topside activities such as ziplining, volcano tours, waterfall hikes or rain forest visits. Our travel department knows how to make this vacation, your vacation of the year!

Contact Dive Easy Travel® at 800-9-DANCER or 305-669-9391 for details.
