Join me on this fun and creative dive adventure. Each diver will create 2 finished works of art, even if you have never painted before. This is for newbies or the artist that wants to learn a new style. Its meant to be fun, relaxing and to get you in touch with your inner creativity. You can paint.

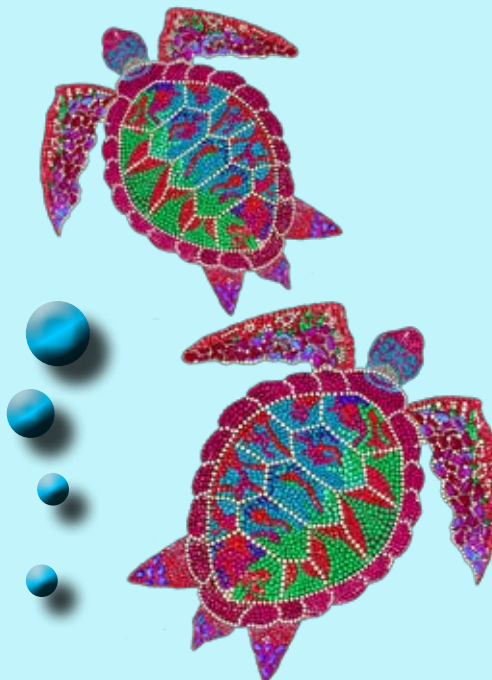

Underwater Belize offers a combination of reefs blanketed with coral, sponge growth and walls beginning as shallow as 20-40 feet. The marine life that inhabits the barrier reef is extraordinary and diverse...everything from schools of tarpon, turtles and stingrays to a wide variety of tropical species, and of course, the famed Blue Hole.

The Blue Hole is an encounter with huge stalactites formed thousands of years ago. Measuring about 1,000 feet in diameter and more than 400 feet deep. You can dive among the stalactites at a depth of 110 to 130 feet. This is a very cool dive.
